

Energy Solutions

Energy stays on,
when **power** is gone.

Small Impact - Big Power

High-performance energy supply for industry, commerce and infrastructure

With the new stationary generating sets from RHK Energy Solutions, you can ensure a reliable and independent power supply at all times. Whether as an emergency power solution, a backup power system or for continuous operation – we have the right solution for your needs.

Technical Highlights

- Power: **20 – 600 kVA**
- Voltage: **400 V**
- Frequency: **50 Hz**
- High-performance **diesel** engines
- Fuel tank for **8 hours of continuous operation**
- **Sound-insulated canopy designs** for outdoor installation
- Robust **open-unit designs** for plant rooms
- Integrated **ComAp control system** and generator circuit breaker
- Immediate operational readiness even at low temperatures thanks to an integrated pre-heating system

Your benefits

- Suitable for emergency power, backup power and continuous operation
- **Immediate availability**
- High reliability and operational safety
- Cost-effective and **long-term solution**
- **Flexible configuration** to meet customer requirements
- Consultancy, delivery and commissioning from a single source
- **Wide range of applications** for industry, commerce, logistics, manufacturing, hotel industry, local authorities, water authorities, agriculture, ...

Our tried-and-tested RHK service for you
